- Symbol: **PST60**
- Kolor: **niebieski**
- Głębokość: **46 mm**
- Średnica: **68 mm**
- Tworzywo: **poliamid PA 6 / bezhalogenowe /**

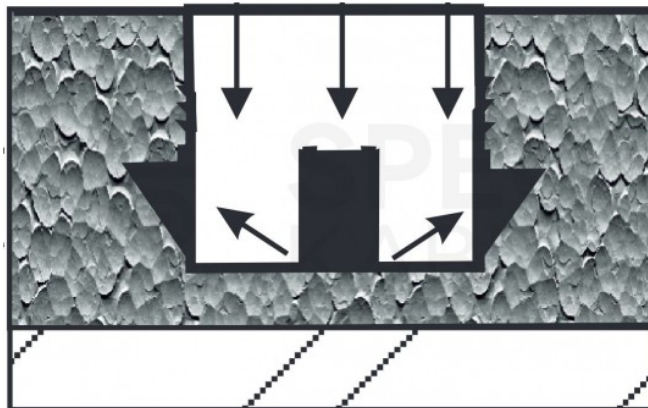

self-extinguishing

- Resistance to fire: **960 °C**

Instructions for mounting the box to polystyrene:

1. **Drill a hole** with a diameter of 68mm and a depth of more than 46mm.
2. **Push the box into the hole** - with the previously removed bottom reinforcement - to introduce the conductors of the power supply.
3. **Clamp the box** - press the 4 elements with your fingers into the box, until you hear a clear click. Pressed spacers permanently secure the box in the polystyrene. To strengthen the installation of the box - you can cover it on the outside with a layer of mounting glue. Adding a mounting plate PMST60 to the box, you can create a system for mounting on a heated wall elements up to 4kg (cameras, antennas, etc.)

About the manufacturer:

Simet specializes in the production and distribution of products for the installation of **telecommunication** and **energy**. The company offers a wide range of products, such as distribution blocks, terminal blocks, isolators, connectors, adapters and many others.
